

Meeting Note #1

Date: Oct 29 2020

Attending

- Mentor [Mohamed]
- VSB_Plus Group [Xia, Xinyu, Jingkang, Priscilla]

Content

- What programming language used
 - html, css, PHP, JavaScrip, Json, Python with Machine learning
- Course page is better to show labs info
- A button can generate weekly schedule or get json file from university
 - Dynamic fetch the courses information from URcourse.
- Highlight the current semester or selected semester in whole semester page
- Course page would be better, if it shows deadline information for the assignment or exam.
- Using AWS(Amazon Web Services) or GCP(Google Cloud Platform) as a server for the website.

Next meeting date: Nov 16 [Bi-Weekly meeting]
